

The process of your original logo manufacturing

Specifications

① Logo position

The place where you can add your logo is specified by RIVERET and it depends on the item. You will be informed about the position when you decide your item. Some items are not able to add a logo, and some items are only available to add a logo at one place.

② Size

The maximum size of the logo depends on the item. Please confirm with our member. For example : Maximum vertical 30 x width 35mm is maximum.

③ Data

Providing Illustrator data (.ai) is necessary. The data should be gray scale (K:100%). It may not be possible to express lines or dots if those are thin.(Minimum : 0.8mm)

The available items for the logo are only the items already launched. Please note that all of the items have the RIVERET logo.

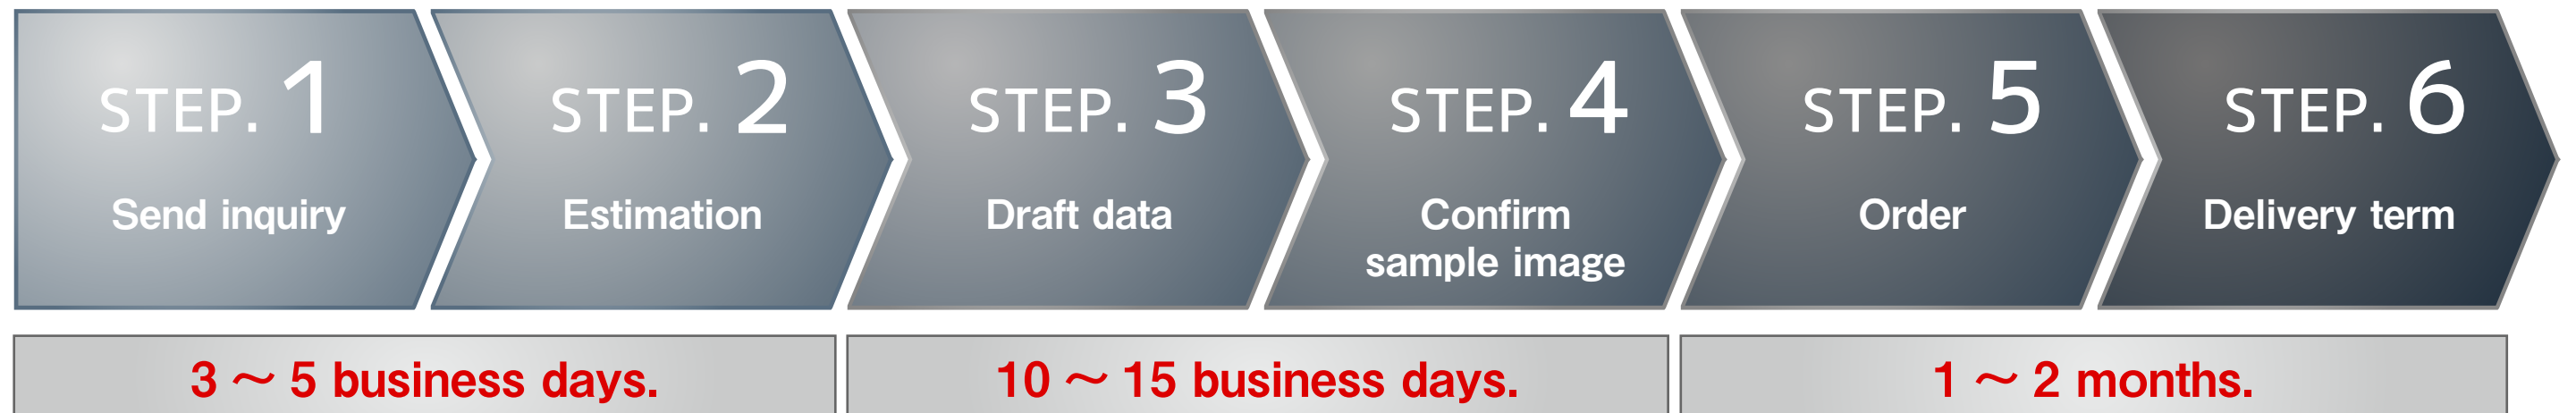

RIVERET items are made by natural resources. There may be a difference in color depending on the material.
